FRENCH – Native (C2)
ENGLISH – Fluent (C2)
SPANISH – Intermediate (B1/B2)
CZECH – Beginner (A1)

PROJECTS AND HOBBIES

- Built a drone (C# + 3D printing) and a bot game (Python)
- Personal IT projects: workflow automation, side-projects, games
- Long-distance cycling: Strasbourg–Athens, Prague–Belgrade
- Sports: badminton, football, volleyball, hiking
- Volunteer teacher in Tanzania; raised €2,000 for the school
- Winner, Land Rover Adventure Competition
- 8-month break to develop personal projects

PROFESSIONAL EXPERIENCES

MICRO-ENTREPRENEUR | 06.2026 → TODAY

VOTRE AGENT IA SUR-MESURE – IA & AGENTIQUE (REMOTE)

- Good understanding of agents architecture & workflows
- 5+ agents sold, 20+ personal use cases + AIOS system built

CO-FOUNDER & CTO | 09.2025 → TODAY

MON DEVIS DENTAIRE – MEDTECH SAAS (REMOTE)

- Product roadmap: prioritized user needs vs tech. constraints
- Customer acquisition: channels, campaigns, product demos
- Architecture & CI/CD: automation, bug tracking, deployment

CUSTOMER QUALITY ENGINEER | 05.2023 → 05.2025

CONTINENTAL AG – AUTOMOTIVE/ELECTRONIC (PRAGUE)

- Managed Renault quality interface and led problem-solving meetings with internal teams and suppliers to identify root causes and deploy corrective actions (industrialization, change management, quality standards)
- Successfully handled 100+ 8D-report claims on a microelectronic display solution
- Participated in 2x IATF audits, ensuring quality excellence

PRODUCTION QUALITY ENGINEER | 09.2020 → 09.2022

GINDRE DUCHAVANY – METALLURGY (LYON)

- Launched a copper straightening machine (1M+ investment): ensured correct settings, trained operators and improved standards and workstation
- Led a production flow optimization project (drawing + straightening machine), improving quality, productivity and logistic KPIs
- Implemented metallography test as laboratory analysis routine

QUALITY & SUPPLY CHAIN ENGINEER | 09.2018 → 08.2020

FRESENIUS MEDICAL CARE – MEDICAL DEVICES (LYON)

1st mission – Quality

- Analyzed defective product data to identify root causes
- Studied industrial plastic welding processes
- Created a product defect bank; trained employees on quality standards

2nd mission – Supply Chain

- Warehouse flow improvement (external facility): -15% idle inventory in 6 months
- Automated planner workflows (SAP/Excel): -60% time on repetitive tasks
- Documented AGV standards to improve warehouse flows
